DETAILED ACTION

The following action is in response to the amendment filed for application 10/693,685 filed on November 8, 2004.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the power transmission as claimed, and particularly including a second torque-transmitting mechanism having a servomechanism with a fluid operated non-rotatable piston slidably supported in a first chamber formed in said front end wall, and including the remaining transmission, servomechanism and transmission housing structures in claims 1 and 2, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kasuya has been cited to show a similar actuator/transmission/transmission housing arrangement.
